Subject: "Abengoa EIS Scoping Comments"

My name is Marcie Isaac and my husband and I live in the NW corner of Hugoton, KS. My question relates to the proposed plant west of our city:

"What can be expected regarding odor pollution, as well as dust pollution from this proposed project." Also, will we have year around train cars parked on the railroad surrounding the west part of our town?"

We have concerns relating to losing the pleasant surrounding in which we now live. Hoping you can put our concerns to rest.

Your response is anticipated and appreciated.

Thank You,

Marcie Isaac
